

# Init-1109

## Sex Education

### *Local Control, Parental Control*

Common sense sex education is as easy as 1...2...3.

- 1 Rollback 5395 Mandatory Comprehensive Sex Education for all publicly funded schools**  
Referendum 90 (removes the mandate comprehensive for K-12 sex education) needs votes to reject and replace in November.
- 2 Remove Office of Superintendent Public Instruction control over sex education content**  
Initiative 1109 is required to replace the OSPI control granted in the Healthy Youth Act of 2008, regardless of the outcome for Ref 90. Only an initiative can remove legislated law. The Healthy Youth Act required schools to either teach nothing or teach OSPI approved Comprehensive Sex Ed. Signatures are needed no later than Dec 21<sup>st</sup>, 2020.
- 3 Restore parental control with the opt-in provision and local school board control with curricula content**  
Parents and citizens will be able to be involved in developing the underlying philosophy and standards used to choose a common sense local school district program.
